INDEX:—	
Importations.....	373
Exportations de produits canadiens.....	393

EXPLANATORY NOTES

1. In all the tables of imports and exports in this Report, the quantities and values are based upon the declarations of importers (import entries) and of exporters (export entries), as subsequently checked by Customs officials.

2. Weight, where shown, is the net weight of the goods, that is, it excludes the weight of the covers or receptacles, except in cases of certain goods, as provided in the Customs tariff.

3. The expression "ton" means 2,000 pounds, and "cwt." 100 pounds, avoirdupois. Where other units of quantity are used, Imperial standards apply.

4. In this Report are trade items such as "Washing machines and parts" and "Internal combustion engines and parts", etc., etc., which show both quantities and values. In the item "Washing machines and parts" the quantity represents the number of "Complete washing machines" only, while the value represents not only the value of the specified number of complete washing machines but also the value of all kinds of "Parts" of washing machines; therefore, in this item, and in similar items, the average value per unit cannot be ascertained.

5. "Imports" means "Imports entered for Consumption". "Entered for Consumption" does not imply that the goods have been actually consumed in Canada, but that they have passed into the custody of the importer and that duty has been paid on the dutiable portion.

6. Under the main provisions of the law, the value of merchandise imported into Canada is the fair market value or price thereof when sold for home consumption in the principal markets of the country from which, and at the same time when, said merchandise was exported directly to Canada; but the value shall not be less than the price to jobbers and wholesalers generally, nor less than the actual cost of production at the time of shipment plus a reasonable advance for cost of selling, and profit. (See Sections 35 to 45 of the Customs Act.)

7. For Customs entry purposes, the value of the imports, which is in the currency of the country from which goods are imported, is converted to Canadian dollars at authorized exchange ratios. (See Section 55 of the Customs Act and Orders in Council respecting currency valuations.)

8. "Exports of Canadian Produce" include not only articles of purely Canadian origin but also imported articles of foreign origin which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined from imported raw sugar, and rubber goods made from imported unmanufactured rubber.

9. The value of "Exports of Canadian Produce" is the actual amount received in terms of Canadian dollars, exclusive of freight, insurance, handling and other charges.

10. "Exports of Foreign Produce" consist of "Imports entered for Consumption" (see no. 5 above), which have been exported from Canada in the same condition as when imported. The value is the actual amount received in terms of Canadian dollars exclusive of freight, insurance, handling and other charges, when exported from Canada.

11. Imports into Canada are classified as received from the countries whence they were consigned to Canada. The countries of consignment are the countries from which the goods have come, without interruption of transit, except in the course of transshipment or transfer from one conveyance to another. The countries whence goods are consigned are not necessarily the countries of actual origin, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to Canada. In such cases the second country would be the country of consignment to which the goods would be credited. An example is the case of tea grown in the Orient but purchased in the bonded market in London, England; Canadian statistics record such imports as coming from the United Kingdom.

12. Exports from Canada are credited to the country to which they are consigned, whether that country possesses a seaboard or not. The country of consignment is the country to which goods exported from Canada are intended to pass, without interruption of transit, except in the course of transshipment or transfer from one means of conveyance to another.

13. *Ports.*—The Table of the Trade of Canada, by Ports and Provinces, shows that merchandise was imported or exported at these ports; but this does not imply that goods imported at any port were for home consumption there or even in the province in which the port is situated, neither does it imply that goods exported at any port originated there or even in the province in which the port is situated.

14. The initials "N.O.P." mean "not otherwise provided for".

NOTES EXPLICATIVES

1. Toutes les indications de volume et de valeur que l'on trouvera dans cet ouvrage sont basées sur les déclarations des importateurs et des exportateurs (documents d'importation et d'exportation), subseqüemment vérifiées par les fonctionnaires des douanes.

2. Partout où il est question de poids, il s'agit du poids net des marchandises, c'est-à-dire que le poids des emballages, récipients, etc. n'y est pas compris, sauf certaines exceptions énumérées au tarif des douanes.

3. L'expression «ton» signifie 2,000 livres et «cwt.» (ou quintal) 100 livres avoirdupois. Lorsqu'on se sert d'autres unités, il convient d'adopter le standard impérial de poids et mesures.

4. Dans ce rapport on trouve des item comme «lessiveuses et pièces» et «moteurs à combustion interne et leurs pièces de rechange», etc., etc., montrant les quantités et les valeurs. Dans le cas de «lessiveuses et pièces» la quantité représente le nombre de «lessiveuses complètes» seulement, et la valeur représente non seulement celle des lessiveuses complètes mais aussi celle de toute les «parties» ou «pièces» de lessiveuses; c'est pourquoi, dans cet item et autres semblables, il est impossible d'établir la valeur moyenne par unité.

5. «Importations» signifie «importations entrées pour la consommation». «Entrées pour la consommation» n'implique pas que ces marchandises sont nécessairement consommées au Canada, mais qu'elles ont été livrées à l'importateur qui a payé les droits sur telle partie imposable de ces marchandises.

6. Dans l'esprit de la loi, la valeur des marchandises importées au Canada est leur valeur raisonnable au prix courant là où elles sont vendues pour la consommation locale sur les principaux marchés du pays d'où, à la même époque, elles sont expédiées directement au Canada; mais la valeur ne doit pas être inférieure au prix coté généralement aux marchands de gros, ni inférieure au coût réel de production à la date de l'expédition, plus une marge raisonnable pour frais de vente et profits. (Voir articles 35 à 45 de la loi des douanes.)

7. Pour les entrées des Douanes, la valeur des importations, exprimée en monnaie du pays d'où les marchandises proviennent, est convertie en dollars canadiens au taux autorisé du change. (Voir article 55 de la loi des douanes et arrêtés en Conseil sur l'évaluation des devises étrangères.)

8. Les «exportations de produits canadiens» comprennent non seulement les articles d'origine purement canadienne, mais aussi les articles importés d'origine étrangère qui ont été modifiés dans leur forme ou augmentés en valeur par une plus ample transformation au Canada, comme le sucre raffiné après avoir été importé à l'état brut, les articles fabriqués avec du caoutchouc brut importé.

9. La valeur des «exportations de produits canadiens» est le montant réel reçu, exprimé en dollars canadiens, à l'exclusion du fret, des assurances, de la manutention et des autres frais.

10. Les «exportations de produits étrangers» comprennent les «importations entrées pour la consommation» (voir le n° 5 ci-dessus) qui ont été exportées du Canada dans le même état qu'à leur entrée. La valeur est le montant réel reçu, exprimé en dollars canadiens, à l'exclusion du fret, des assurances, de la manutention et des autres frais, quand les marchandises sont exportées du Canada.

11. Les importations au Canada sont attribuées aux pays d'où elles ont été consignées au Canada. Les pays de consignation sont les pays d'où viennent les marchandises, sans autre interruption de transit que les transbordements inéluctables. Les pays d'où les marchandises sont consignées ne sont pas nécessairement les pays d'origine, car les marchandises produites dans un certain pays peuvent avoir été achetées par une firme d'un autre pays, d'où elles peuvent être expédiées au Canada après une période plus ou moins longue. Dans ce cas, l'attribution de ces marchandises est faite au second pays, considéré comme pays de consignation. Il en sera ainsi, par exemple, du thé récolté en Orient mais acheté sur le marché de Londres, Angleterre; les statistiques canadiennes considèrent ces importations comme venant du Royaume-Uni.

12. Les exportations du Canada sont attribuées au pays où elles sont consignées, même si ce pays ne possède pas de port de mer. Le pays de consignation est le pays que les marchandises exportées du Canada doivent finalement atteindre sans interruption de transit autre que les transbordements inéluctables.

13. *Ports.*—Le tableau du commerce du Canada, par port et province, montre les marchandises importées ou exportées par ces ports, mais il n'en faut pas conclure que les marchandises importées par un port quelconque sont pour la consommation de la province où est situé le port, ou que les marchandises exportées sont produites par la province où est situé le port de sortie.

14. Les initiales «n.a.é.» signifient «non autrement énuméré».
